

Testing and analysis

Extensive testing and analysis guarantee the highest quality standard for continuous use.

BioAktiv Professional Animal Feed Poultry and Salis Poultry is suitable for use in Organic Agriculture conforming to the annexes of the (CE) regulation n° 2018/848 and 2021/1165.

BIOAKTIV[®]

PROFESSIONAL FARMING

Through constant contact with our customers, our sales team and our business partners ensure the regular exchange of results and scientific findings.

BioAktiv Team

This allows us to continuously adjust our BioAktiv products to various influences and conditions. Through close collaboration with development, testing and sales, we are able to develop new quality products for our customers. Our certificates are constantly updated and checked so we can deliver you consistent BioAktiv quality.

Through our many years of agricultural know-how and many tests and trials, we have succeeded in professionally optimizing our products for the sector.

BIOAKTIV[®]
Professional
ANIMAL FEED AND
SALIS POULTRY

What does BioAktiv do?

BioAktiv Professional Animal Feed Poultry and Salis Poultry promotes aerobic bacteria. The stable climate is improved and general health and performance are stabilized.

Reduces broken eggs

Reduces odor

Improves the stable climate and reduces ammonia concentration

Higher shell weight

Improvement of egg production

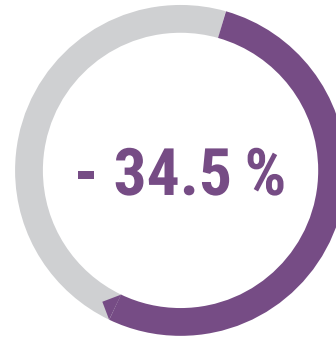

Reduces mortality

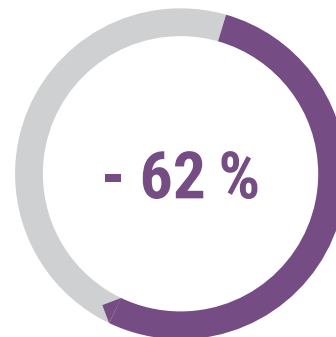

Feed trial with BioAktiv Professional Animal Feed Poultry

The trial was conducted with laying hens from the age of 53 weeks up to the age of 71 weeks. BioAktiv Professional Animal Feed Poultry had a very positive effect in the trial on the reduction of mortality rates for poultry and demonstrated a drastic reduction in ammonia levels.

Mortality

Using BioAktiv, mortality in the trial group was 4.01 %.
Without BioAktiv, mortality in the trial group was 6.12 %.

Ammonia levels

In the trial group, the average level was 5.37 ppm, but levels in the control group were much higher at 8.63 ppm.

BioAktiv Professional Animal Feed Poultry

1 kg / 5 kg / 20 kg

Dosage

Particularly suitable for all types of poultry with the age of 8 days.
Mix into the animal feed.

200 g / per tonne prepared feed

Composition
